# **Strategies for Evoking Change Talk**

# 1. Ask Evocative Questions – Use Open-Ended Questions

Examples:

- Why would you want to make this change? (Desire)
- How might you go about it, in order to succeed? (Ability)
- What are the three best reasons for you to do it? (Reasons)
- How important is it for you to make this change? (Need)
- So what do you think you'll do? (Commitment)

### 2. Ask for Elaboration

When a change talk theme emerges, ask for more detail:

- In what ways?
- How do you see this happening?
- What have you changed in the past that you can relate to this issue?

### 3. Ask for Examples

When a change talk theme emerges, ask for specific examples.

- When was the last time that happened?
- Describe a specific example of when this happens.
- What else?

# 4. Looking Back

Ask about a time before the current concern emerged:

- How have things been better in the past?
- What past events can you recall when things were different?

### 5. Look Forward

Ask about how the future is viewed:

- What may happen if things continue as they are (status quo).
- If you were 100% successful in making the changes you want, what would be different?
- How would you like your life to be in the future?

## 6. Query Extremes

Ask about the best and worst case scenarios to elicit additional information:

- What are the worst things that might happen if you don't make this change?
- What are the best things that might happen if you do make this change?

7.	Use	Change	Ru	lers
----	-----	--------	----	------

Ask open questions about where the client sees themselves on a scale from 1-10. - On a scale where one is not at all important, and ten is extremely important, how Important (need) is it to you to change \_\_\_\_\_? -Follow up: Explain why you are at a \_\_\_\_ and not (lower number)? - What might happen that could move you from \_\_\_\_ to a \_\_\_\_ [higher number]? - How much you want (desire), - How confident you are that you could (ability), - How committed are you to \_\_\_\_ (commitment). 8. Explore Goals and Values Ask what the person's guiding values are. - What do they want in life? - What values are most important to you? (Using a values card sort can be helpful here). - How does this behavior fit into your value system? - What ways does (the behavior) conflict with your value system 9. Come Alongside Explicitly side with the negative (status quo) side of ambivalence. - Perhaps \_\_\_\_\_ is so important to you that you won't give it up, no matter what

The cost.

- It may not be the main area that you need to focus on in our work together.
